

Accuristix Acquires Nova Pack Limited

OAKVILLE, ON, January 27, 2011 - Accuristix is proud to announce the acquisition of Nova Pack Ltd., a contract packaging (co-pack), re-packaging and assembly provider specializing in over-the-counter (OTC), health and beauty (HABA), healthcare and pharmaceutical product handling. Combined with the current Accuristix customized healthcare logistics solutions, the acquisition enables enhanced outsourced co-pack capabilities and allows both companies to offer a broader scope of services to the Canadian healthcare marketplace.

Accuristix and Nova Pack are both focused on building solutions exclusively for the healthcare market. Quality conscious manufacturers in the healthcare/HABA fields will benefit from a consistent and effective co-pack service offering anywhere in Canada as a result of integrating the Accuristix footprint of Health Canada/GMP facilities across Canada with Nova Pack's expertise, technology, web visibility and consistent, audited QA / GMP processes.

"We can now add Point of Purchase display design, manufacture, and "build" to our existing co-packing services, incorporating a high degree of control through Nova's web-based enterprise performance management system which manages all aspects of a project from quote to invoice," says Cameron Joyce, President of Accuristix. Prior to the acquisition, Nova Pack was a member company of the Hughes Group, an association of complementary sister-companies including, Hughes Containers Ltd., Decorr Display & Design and Design Plastics International.

"This is the start of a strong, fully integrated partnership that will offer our healthcare clients enhanced logistics and services to support distribution and marketing efforts to their customers," says James Houghton, President of Nova Pack Limited. "We also look forward to growing our relationship with the Hughes Group partners and continuing to incorporate their unique capabilities into our solutions."

About Accuristix

www.accuristix.com

Accuristix is a third party logistics company focused on providing advanced outsourced logistics and management services to manufacturers in the pharmaceutical, specialty pharmaceutical, biotech, medical device, consumer health products, health and beauty aids, natural health products and nutritional segments of the healthcare industry. Accuristix currently operates four distribution centres in the Toronto Area, others in Vancouver, and Los Angeles, with Calgary and Montreal facilities opening in early 2011.
