

Announcing our new Director of Quality Assurance and Regulatory Affairs

Oakville, ON, February 13, 2009 – Cameron Joyce, President of McKesson Logistics Solutions is pleased to announce the appointment of Harpreet Uppal to a new position as Director of Quality Assurance and Regulatory Affairs. With this new role includes the restructuring of the QA team as a separate department reporting directly to Cameron.

Harpreet joined McKesson Logistics Solutions in September 2008 as Senior Manager, Client Solutions. She has an extensive background in regulatory affairs and quality management. Prior to joining McKesson Logistics Solutions, Harpreet held the position of Regulatory Affairs Manager at UPS Supply Chain Solutions. Harpreet has also held positions in regulatory affairs for Aventis Pasteur Inc. and Genpharm Inc.

In her new position of Director, Quality Assurance and Regulatory Affairs, Harpreet will lead the development, implementation and ongoing management of quality programs, policies and strategies that respond to client and industry standards. She will work with individual business units, external parties and clients on matters that relate to quality and regulatory compliance. Reporting to Harpreet will be Tim Kwan, QA Manager and the QA team.

McKesson Logistics is committed to providing our clients with exceptional quality programs and processes as demonstrated by our ongoing investments in new technology, new skill sets, employee training and process improvement initiatives.

We look forward to your continuing support and feedback.
